

Sec 1 - Tropical Rainforest

Demonstrate My Learning

Activity

After unpacking the issue and the GI questions, students are to create a short video using the Clips App in response to the question, “How can we save the rainforest?”.

Objectives

- Students can describe the characteristics of tropical rainforests and describe how tropical rainforests adapt to the tropical climate.
- Students can describe the impact of deforestation on people and the conservation of tropical rainforest in Singapore and one other country.
- Students can select, organise and apply concepts, terms and facts learnt, as well as construct an explanation and undertake analysis. (AO2)
- Students can comprehend and extract relevant information from geographical data. (AO3)

Extensions

- Teachers can pre create a project template (within the Clips App) with some guided questions such as “What are tropical rainforests” and “What is deforestation” for students to answer.
- Students can create their own music in GarageBand and export this into Clips for their video.

Have a go

- 1 After research. Open Clips  and tap + to begin a new project.
- 2 Select **POSTERS** at the bottom of the screen and choose the appropriate poster for the project. Double tap on the text and replace with appropriate title. Tap **Apply** in the top right-hand corner of the screen.
- 3 Turn on Live Titles . Please make sure Wi-Fi is turned on. Swipe up the  and record. **LIBRARY** to import an image from photos. Tap on  to customize image with filters, and add labels.
- 4 Use Pinch to Zoom whilst recording photos/video to provide focus and attention to the relevant content. Tap on the music icon in the top right hand corner to select appropriate music to enhance presentation.
- 5 Export  and save video  to the Camera Roll.
